CABLE AND INTERCONNECT FOR HIGH TECH APPLICATIONS

FROM SIMULATION TO INTEGRATION

The company's success can be explained by its capacity to design and manufacture innovative links and electrical interconnects for severe environments.

Cross-over from our space technologies towards those of medical or automotive enables Axon' to offer innovations to customers and a rapid development.

INNOVATION IS IN OUR DNA

- Innovation is one of the main priorities of the group which invests 10% of its turnover in Research & Development.
- As an expert in cabling engineering, Axon' Cable is able to design the whole cabling network. Axon' Engineers assist customers with the most appropriate tools including simulation software and co-design in all the development stages.

EUROPEAN ROOTS, INTERNATIONAL PRESENCE

- Since its creation, Axon' has kept on growing. From prototypes to high volume production, Axon' is able to support customers anywhere in the world with a large network of subsidiaries and agents.

A HIGH QUALITY COMPANY

- Axon' Cable is one of the first companies in the world to be ISO 45001 approved. This certification illustrates the Axon' committed policy in terms of Corporate Social Responsibility.
- Other approvals: ISO 9001, ISO 14001, ISO 13485, EN 9100, IATF 16949.
